# GREETINGS!

GREETINGS TO OUR MANY CUSTOMERS  
AND FRIENDS!

At this time we wish to thank you for the splendid season we have had. It has been more than gratifying to us and we hope that you have been as well pleased with our bulbs and method of handling your orders as we have been with your business.

We aim to offer only such quality stock as we would want to purchase ourselves, and the varieties which we are growing have been carefully chosen both for their good behavior and their beauty.

For this coming season we have a splendid crop of clean, healthy, vigorous young bulbs to offer you of the best of the older varieties and the most promising of the new.

We suggest that you order early while our stocks are still complete.

Sincerely yours,

GEORGE D. PROSS.  
AZALEA PROSS.

# INTRODUCTIONS

1937

## MAID OF HONOR (Kinyon)

A creamy white decorative blending to pure pink at edges of delicately frilled petals, giving the appearance of a light pink glad. It will open up to seven florets and spike is always straight and placement good. Blooms out to the tip beautifully either inside or in the garden, and is a splendid keeper. The color is wonderfully clean and most suitable for floral work of any sort. It is a vigorous grower and increases very satisfactorily.

A leading cut flower grower of the Middle West says: "We liked it better than any pink and white we were cutting."

Mr. E. A. Lins of the Legion Trial Gardens gives us the following report on it, grown as he says, "under very trying conditions. Very hot and no rain since first of July." (His letter was dated September fourth.)

- Planted — May 22nd.
- Bloomed — August 10th.
- Overall Length — 52 inches.
- Head Length — 20 inches.
- Number of buds — 18.
- Number Open — 7.
- Size florets — 4¼ inches.
- Facing — Very good.
- Spacing — Very good.
- Texture — Very good.
- Floret — Frilled.
- Type — Decorative.
- Stem — Heavy and straight.
- Foliage — Medium and healthy.
- Color — Cream white blending into pink edge. Has appearance of being pink glad.
- Remarks — Won third Wisconsin 1937, Decorative Class with first spike.
- Very clean.

We believe that the above report on trial of Maid of Honor this past summer will give you a better idea of this new glad and its performance than any write-up we might be able to make of it. It is a consistently good performer.

PRICE

# *The Care of Gladiolus*

---

## **SOIL AND FERTILIZER**

Glads do well on any good garden soil if they are planted out in the open garden where they will get plenty of sunshine and a reasonable amount of moisture. Soil should be well drained. A small amount of well-rotted cow manure worked into the soil in the spring is the best fertilizer. If this is not available, use pulverized sheep or cow manure by putting it into the bottom of the trench and then covering with an inch of soil. Then plant the bulbs. Vigoro is a good, well-balanced commercial fertilizer and is very satisfactory. Any fertilizer should be kept from direct contact with the bulb or foliage.

## **TREATMENT**

All bulbs should be treated with Corrosive Sublimate before planting, using one ounce to ten gallons of water. Soak bulbs over night in this solution in a wood container. This is a preventative against scab and kills any thrips which may have wintered over on the bulbs.

## **PLANTING**

The soil should be well prepared as for any garden. The large bulbs should be planted not less than four inches deep, and if the soil is very light they may be planted up to six inches deep. Smaller bulbs may be planted shallower. Rows should be planted anywhere from one foot to two feet apart according to the space you have in your garden. Plant the bulbs from three to six inches apart, depending on space available and number of bulbs. You may also plant in beds, spacing the bulbs about six inches apart each way. Keep well cultivated.

## **THRIPS**

Thrips control is no longer a problem if one is willing to go to a little trouble. Start spraying when the plants are about six inches high even though there is no sign of thrips on your glads. Continue to spray every week or ten days during the season. Use one tablespoon of Paris Green and two pounds of brown sugar to three gallons of water, keeping spray well agitated. This, with the use of Naphthalene during storage should keep your planting clean.

## DIGGING AND STORAGE

Bulbs should be taken up about two months after blooming, but under no circumstances should they be left in the ground so late that the ground is apt to freeze deeply. After digging, cut the tops off close to the bulb and place the bulbs in shallow boxes or trays to cure. If they are dug on a bright, sunny day, leave them out of doors the balance of the day to dry somewhat. Store in a fairly warm, well-ventilated room until they are thoroughly dry, stirring them every few days. In a few weeks the old bulbs and roots can be removed and then as a preventative against thrips use Naphthalene Flakes. This can be purchased in almost any drug store. Sprinkle about one ounce of Naphthalene in the box to every hundred large bulbs, cover well and keep in warm room about two weeks. Then remove flakes and store bulbs in a well ventilated room at a temperature as near 40° as possible. As a general rule, your fruit cellar is ideal. Stir them occasionally during the winter.

## *Beginners' Special*

---

If you are just starting your gladiolus garden and are in doubt as to what varieties to order, let us make a collection up for you.

Just send us the amount of money you wish to spend and tell us what colors you are most interested in and we will be pleased to make up an assortment of bulbs especially for you.

Each variety will be labeled if you so desire.

Prices on these collections are as follows:

12 Bulbs .....	\$ .60
25 Bulbs .....	1.00
50 Bulbs .....	1.75
100 Bulbs .....	3.00

### ALL-AMERICAN COLLECTION

- 1 Christabel
- 1 Heritage
- 1 Honor (Kinyon)
- 1 King Arthur
- 1 Margaret Fulton
- 1 Mary Elizabeth

# DESCRIPTIONS OF VARIETIES

---

**AFLAME** (Hornberger) Giant flowers of flame red with rose overlay. Grows very tall.

---

**AIDA** (Pfizer) Deep blue violet with rosy violet throat. Very early.

---

**ALAYNE** (Kinyon) Beautiful new shade of light rose. Tall and straight and does not fleck. A good keeper, and blooms well from small sizes.

---

**AMADOR** (Kingsley) A glowing red glad that does not burn or turn dark in the sun. Always gives a good straight, large spike.

---

**APRICOT GLOW** (Palmer) A clear, warm apricot prim grand.

---

**BABY BETTY** (Kinyon) One of the loveliest of the decoratives. Cream blending to light pink at tips of petals. A wonderful glad for arrangement work.

---

**BAGDAD** (Palmer) Immense smoky rose with lighter throat lined ruby. Six to eight open on a tall, straight spike.

---

**BEACON** (Palmer) Salmon with large cream blotch. Blooms medium in size but very distinctive.

---

**BERTY SNOW** (Mair) Large pinkish lavender, often flecked darker. Makes a beautiful compact spike.

---

**BETTY CO-ED** (Briggs) Soft, creamy pink decorative on a tall, slender spike. Very attractive.

---

**BETTY NUTHALL** (Salbach) Warm, coral pink with orange throat markings. One of the finest varieties ever originated. Late.

---

**BILL SOWDEN** (Fallu) Giant deep red flecked darker. The florets are large but does not always give a long flower head.

---

**BIT O' HEAVEN** (Crow) Good new exhibition orange.

---

**BLEEDING HEART** (Brown) White tinted light pink with large red blotch. A good tall straight spike with many well placed open flowers and buds.

---

**BLUE ADMIRAL** (Christ) Rich clear, deep violet. Large blooms and many open. One of the best of the blues.

---

**BRIGHTSIDE** (Prestgard) Canary yellow with tips of bittersweet orange. A decorative of unusually attractive shape and coloring. Gives a tall, slender, straight spike of well-placed bloom.

---

**CANBERRA** (Errey) A tall yellow of good substance. Large florets.

---

**CHARLES DICKENS** (Pfizer) Rich reddish purple with deeper blotches. Is tall and carries many buds and open flowers.

---

**CHRISTABEL** (Mitsch) LaFrance pink with a sulphur yellow throat. Gives a very attractive spike of flowers.

---

**CLARION** (Crow) Very early deep yellow. Spike tall and flowers well placed.

---

**COMM. KOEHL** (Pfizer) Very large clear scarlet red. Produces exceptionally long straight spikes of large florets.

---

**CORONATION** (Palmer) Soft light salmon shading to cream and creamy yellow deep in throat. A fine exhibition variety.

---

**DEBONAIR** (Palmer) LaFrance pink with deep cream throat. A very tall straight spike with an exceptionally long flowerhead.

---

- 
- DR. F. E. BENNETT** (Diener) Tall brilliant scarlet with white lines in throat. The best exhibition and commercial scarlet to date.
- 
- DR. HOEG** (Prestgard) Rich maroon with florets delicately edged with silver. Has a beautiful silky sheen.
- 
- DR. MOODY** (Kinyon) Light lavender with very fine pencilling of a darker shade in throat. Many open. Splendid commercial.
- 
- DREAM O' BEAUTY** (Zimmer) Large rose red. Very brilliant and beautiful although placement is not always good.
- 
- DUNA** (Palmer) Soft pinkish buff with a cream throat. A lovely new shade, and a grand commercial.
- 
- ELOISE** (Dorrett) A clear dark lavender of a very unusual shade.
- 
- EMILE AUBRUN** (LeMoine) Coppery bronze often overlaid with slate. Large cherry red blotch. Splendid for hybridizing.
- 
- EUIDES** (Errey) An ivory white very light flushed pink. Eight to ten open. A new exhibition variety which has prospects of becoming a leading commercial.
- 
- GLOAMING** (Zimmer) A new dark purple with a white throat. Gives a tall, slender well-set-up spike. Florets medium in size but lovely in color.
- 
- GLORIANA** (Bettscher) Golden salmon, yellow throat. An older variety which is still a favorite, and one of the best commercials.
- 
- GOLDEN DREAM** (Groff) Clear yellow, tall, with many open.
- 
- GOLDEN POPPY** (Prestgard) Tall and very deep yellow — almost an orange. Not a large flower but decidedly different.
- 
- GRAF ZEPPELIN** (Pfitzer) Large orange red. Gives a nice spike of brilliant color.
- 
- HERITAGE** (Ristow) Pure pink with snow white throat and midribs. An immense glad with many open at once.
- 
- HINEMOA** (Doney) Deep smoky rose flecked darker. Yellow throat. A color combination that is different.
- 
- HONOR** (Kinyon) Clear lavender with dustings of self color on white in lower petal. Wonderfully clear color and a good performer.
- 
- IRAK** (Mitsch) New silver grey sport of Bagdad. A novelty which you will want in your garden.
- 
- ISOLA BELLA** (Pfitzer) New large light, pinkish lavender. A good spike with many open.
- 
- JOAN PETY** (Kinyon) Pure pink with small markings of violet on cream in lower petals.
- 
- KING ARTHUR** (Arenius) Large deep lavender, heavily ruffled. Quite distinctive as to form and color.
- 
- LAPALOMA** (Dusinberre) Large bright orange with a slight flecking of red in the throat. Early.
- 
- LAVINIA** (Baerman) Lovely new rich rose.
- 
- LIBELLE** (Pfitzer) Heliotropé blue with violet feather in throat. One of the larger blues, with good placement.
- 
- LIGHTS OF GOLD** (Hornberger) Intensely ruffled salmon pink with large throat blotch of golden yellow. Gives a fine, compact spike of perfectly placed flowers. Increases rapidly. One of the loveliest glads in the garden.
- 
- LOTUS** (Prestgard) Shell pink and cream, slightly ruffled. Very lovely and delicate in color.
- 
- MAJOR GLADWIN** (Kinyon) A good scarlet red.
- 
- MAID OF HONOR** (Kinyon) (See Page 1)
-

- 
- MAID OF ORLEANS** (Pfizer) Beautiful milky white with cream throat. Tall spikes, florets well placed and large. A really good white.
- 
- MAMMOTH WHITE** (Pfizer) An immense pure white, but the flower-heads are inclined to be short and crowded at times, especially if moisture is lacking.
- 
- MARGARET FULTON** (Ogrod) Beautiful coral pink blending to a slightly lighter throat. An early variety which gives 100% perfect spikes.
- 
- MARMORA** (Errey) Lavender gray with petunia colored blotch. Many open.
- 
- MARY ELIZABETH** (Stevens) Medium sized ruffled white with yellow throat. A really outstanding new decorative.
- 
- MILDRED LOUISE** (Wentworth) Pure strawberry pink self on upper petals with blending of yellow in throat. A beautiful color and a wonderful performer.
- 
- MILFORD** (Rides) Azure blue with very small throat markings. A good, new light blue — the best in its color class.
- 
- MINUET** (Coleman) Tall, straight light lavender. Consistent in performance and always a winner in the shows. Considered the best lavender to date.
- 
- MISS BLOOMINGTON** (Kunderd) Large early light yellow. Six or more open. While light in color, it is a splendid cut flower.
- 
- MISS NEW ZEALAND** (Julyan) A giant salmon pink with deeper blotch. Unusual in size and very much of a winner on the show table.
- 
- MOROCCO** (Pfizer) Very dark maroon. Buds almost black.
- 
- MOTHER MACHREE** (Stevens) Beautiful smoky lavender grey blended with salmon and yellow. Six to eight open on a tall spike. One of the most unusual and outstanding smokies.
- 
- MRS. LULU HUNT** (Phelps) A very early dark pink with a deeper feathering in throat. A really good cut flower and a decided favorite.
- 
- MRS. P. W. SISSON** (Coleman) Ruffled cameo pink with cream blotch.
- 
- MRS. T. E. LANGFORD** (Palmer) A decorative in a color combination of pink and cream that is irresistible. An especially beautiful glad for arrangement work. A perfect cut flower and a splendid shipper.
- 
- NANCY ANN** (Kinyon) Light lavender pink blending slightly deeper at edges of petals. Lower petals marked cream.
- 
- NEW ERA** (Ellis) A beautifully ruffled pink with a soft cream throat. Tall, straight spike with many open. One of the best of the newer varieties.
- 
- NINTH SYMPHONY** (Pfizer) A vivid salmon red of immense exhibition type. New and good.
- 
- OLIVE GOODRICH** (Goodrich) White, tinted light pink shading darker at the edges. Pale yellow throat.
- 
- OLIVE MARIE BROWN** (Phelps) A small decorative of rich deep orange. Very irregular as to form of petals and florets, which adds to its beauty. Many open.
- 
- ORANGE QUEEN** (Pfizer) Fine orange decorative. Beautifully clear color and although one of the older varieties, it is still very much of a favorite.
- 
- ORANGE SOVEREIGN** (Stevens) A light orange buff which does not fade or burn in the hot sun. Eight to ten good sized blooms open at once. Does well in dry weather.
- 
- PELEGRINA** (Pfizer) A large deep blue with six or more open. Richer and deeper than Aida and without the throat blotch.
- 
- PFITZER'S TRIUMPH** (Pfizer) Brilliant salmon with deep salmon red blotch. Beautiful but will not stand much sun. To really enjoy this glad, cut it when first floret opens and allow it to bloom in the house.
-

- 
- PHYLLIS McQUISTION** (Stewart) Beautiful clear pink with white throat. A good spike of well placed flowers. One of the new ones which is becoming a general favorite.
- 
- PICARDY** (Palmer) Warm, glowing salmon pink with small rose feathering in throat. An immense spike with many large flowers open. Increases rapidly and blooms well from small sizes.
- 
- PIRATE** (Palmer) Shades of very deep red and purple. A really dark glad of unusual beauty. Deep and velvety and has plenty of life in spite of its dark coloring.
- 
- POLAR ICE** (Pfitzer) A tall, strong growing pure white. Early and a good commercial. A white that is really white.
- 
- PRIDE OF PORTLAND** (Ellis) Tall, clear begonia rose with cream blotch. This glad always attracts attention in the garden.
- 
- PRIMATE** (Crow) Tall, light yellow. Straight and a very sturdy grower. Transmits its good qualities to its seedlings.
- 
- PURPLE QUEEN** (Kunderd) Ruffled, deep violet purple.
- 
- RED LORY** (Errey) Gorgeous shade of carmine rose with deeper red blotches. Nearly the whole spike open at once. Very large and showy.
- 
- RED PHIPPS** (Briggs-Long) Brilliant light scarlet. Tall spike with many well placed florets out at once.
- 
- REWI FALLU** (Fallu) New giant deep red glad which is already making a name for itself. Blooms from bulblets.
- 
- ROSE STANDISH** (Kinyon) Beautiful clear shade of light rose pink. Ruffled and wide open.
- 
- ROSE WINGS** (Crow) Rosy carmine deepening toward edges and with a deeper lip. Fine gold line on edges of petals. An unusual decorative.
- 
- ROYAL YORK** (Palmer) Large, medium dark red. Gives a good tall spike well formed.
- 
- RUFFLED BEAUTY** (Baerman) Large new light yellow. Ruffled.
- 
- RUSTY** (Kinyon) Yellow overlaid with fine lines of red, giving a rusty orange effect. Yellow throat blotch. A really different glad.
- 
- SHIRLEY TEMPLE** (Pruitt) An immense heavily ruffled cream with a deeper throat. A wonderful new flower which blooms well from small sizes and propagates well.
- 
- SO BIG** (Kinyon) Deep rose pink with violet feather on lower petal. An immense flower in a new color.
- 
- SPRAY OF GOLD** (Palmer) Deep clear fine yellow, medium size and somewhat ruffled.
- 
- STAR OF BETHLEHEM** (Pfitzer) A new pure white, larger than Maid of Orleans. Very tall and large.
- 
- SWEETHEART** (Prestgard) A medium size decorative in pink and white. An early bloomer of good color.
- 
- TENNYSON** (Kingsley) Rich ox blood red with a cream blotch. Flowers large and well-placed.
- 
- TREVONIAN** (Hornberger) Brilliant rose red with lighter streaks. A tall, straight showy flower, well placed. Cuts 100% perfect spikes.
- 
- VAGABOND PRINCE** (Palmer) Mahogany brown with a flame blotch.
- 
- WASAGA** (Palmer) Very beautiful buff self with wide open, somewhat ruffled blooms.
- 
- W. H. PHIPPS** (Diener) Light salmon. A long spike with often fifteen to twenty blooms open at a time. Does not always come well placed and is inclined to be stubby, but it is still a favcrite because of its showiness.
- 
- WURTEMBERGIA** (Pfitzer) Fiery scarlet with cream white throat. Immense blooms on a tall straight spike.
-

## *Prices --- Terms --- Delivery*

---

**PRICES** in this catalog are net. However, we believe you will find us more than generous in count and with extras.

**TERMS:** Cash with order, or you may send 25% cash with order and shipment will be made C. O. D. for balance due. Or, send 25% cash with order and balance any time before we are ready to ship. **Michigan customers will please add 3% Sales Tax.**

No order for less than \$1.00 will be accepted. No single item less than 10 cents.

All shipments will be prepaid. Please include both parcel post and express addresses. We will ship the cheaper way.

### **BULB SIZE**

**LARGE BULBS** measure in diameter from 1 1/4 inches up, mixed sizes.

**MEDIUM BULBS** measure from 3/4 inch to 1 1/4 inches or larger, mixed sizes. These medium sized bulbs bloom splendidly, although the spikes are not as large as from large bulbs.

**SMALL BULBS** measure 1/2 inch to 3/4 inch. These are not sold as blooming sizes but many will bloom.

### **GUARANTEE**

We ship only first quality stock, which is clean, healthy, full sized and true to name and is guaranteed as such at time of shipment. If you are not satisfied with shipment when it arrives you may return it and we will cheerfully refund your money.

### **SUBSTITUTION**

All stock sold subject to prior sale. In case we are sold out of certain varieties on your order, please name a few varieties we may send as second choice. We will not substitute sizes or varieties without permission of the customer.

25.00 Up — Take 25% off.

# SPECIAL OFFER

---

For those of you who are interested in graded lots of a variety (that is, large, medium and small sizes) for the purpose of giving you a longer period of bloom and a good start in your favorite varieties at a reasonable price, we offer the following: —

For \$1.00 we will send you a dozen of each of any three of the varieties listed below.

For \$3.00 we will send you a dozen of each of twelve of the varieties listed below.

Each dozen bulbs will consist of four large, four medium, and four small bulbs.
